

5th Annual Bike Swap

The 5th annual bike swap to raise funds for snowmaking at Lapham helped raise \$4566.96 (net 4166.96) towards the project. With the help of the Kettle Moraine School District the event was held at Cushing Park School in Delafield on March 20 2010. It only took 4 hours to raise these funds during the actual event from 9:30 to 1:30. However, before the event many volunteers worked tirelessly to promote it through fliers and advertisements that produced a significant turnout.

We will hold the event again next year, sometime during March. Some excellent deals have been had at the swap through those looking for a quality used bike or families looking to upgrade bikes for their children.

Many folks have taken advantage of such an event to sell their old bikes or gift them to the Friends. Remember a donation to the Friends is a tax deductible event. You are reminded that if you want to take advantage of gifting an older bike to the swap you can do so before the end of the year and take advantage of the tax deduction for this year.
