

## **Bike Swap 2012**

The 7th Annual Bike Swap to benefit snow making successfully competed with a new bike swap that occurred at the Waukesha Expo just weeks before Friends of Lapham Peak event. Net revenues for our Bike Swap came in at \$3828.00, \$58.00 ahead of the year before.

The event for next year will occur on March 9, 2013 so mark your calendars and prepare to get some excellent deals on some quality used bikes. Also consider donating a used bike that may be gathering dust at home. Such a gift is considered a tax deductible item. This year we are developing a dedicated website to the event where vendors can register directly at <http://www.bikeswap-laphampeakfriends.org/>.

We also want everyone to know that this will be our last year coordinating this event and we are looking for someone to step up and continue the tradition of not only providing a service to the community but also a path to making money for the snowmaking project at Lapham. Over the past seven years this project has made \$25,854 for snowmaking. We were privileged to work with dedicated volunteers who helped make this project successful over the years. So please consider the opportunity of keeping this tradition going--step up to the leadership role that will keep this tradition alive. Bob and Bob would be more than willing to help along the way.
